Versatile Playhouses with numerous Climbing Elements

Berliner
160 Years of Ideas

Berliner Seilfabrik Play Equipment for Life

This slogan means a lot to us! It defines how we work and construct playgrounds. In over 50 years that we have been dealing with playground equipment, we have built up an extensive product range with creative ideas and industry expertise at our headquarters in Berlin. We can offer a distinctive design for any outdoor or indoor play area. Thanks to the sturdy construction, the extraordinary durability is standard for us. That is why we provide a guarantee for our products for a period of up to 15 years.

Versatile Playhouses with numerous Climbing Elements: Villago

Welcome to the fascinating world of Villago! Our impressive new product line includes innovative playhouses that combine versatile play cells with a large spatial net. The six different styles create exciting themed worlds that set no limits to imagination and creative play. With two sizes – L and M – Villago adapts to different environments without losing the variety of play options.

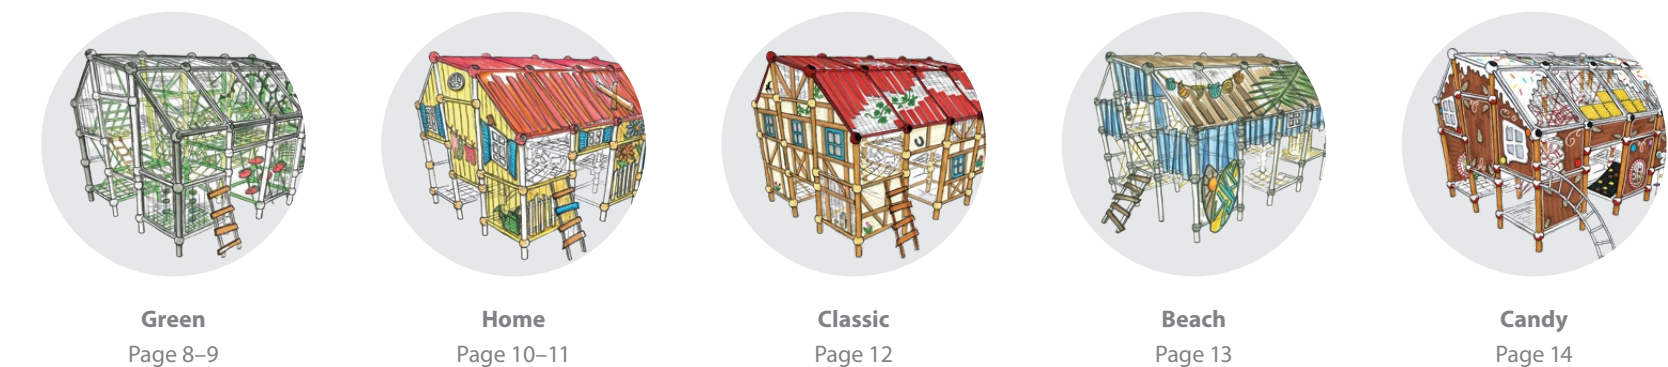

The 5-degree inclined posts and the partially open façade make the design of each play structure unique and arouse curiosity about what is inside. We use bamboo, HDPE, and wood panels combined with the brand-new transparent Joe's Grid frames to give the playhouses an authentic look that matches the theme.

The numerous play elements inside ensure varied play and promote children's physical, mental, and social skills. For example, little climbers can enjoy the net funnels with staggered HPL panels, rubber mats, hammocks, net tunnels, and a large three-dimensional net. For even more play value and fun, each playhouse can be equipped with various add-on elements such as a slide, a ladder, or an access net. Whether in a public space or in an amusement park – Villago is a captivating attraction everywhere!

Additional Styles

Technical Insights

Villago features numerous technical innovations and combines play cells with a spatial net. The three-dimensional net located in the center of the playhouse is tensioned between the tubes using the Ball Connector and the integrated AstemTT® tensioning system. This innovative system simplifies installation, re-tensioning, and maintenance of the spatial net and guarantees that all technical elements are kept inside the aluminum sphere and out of the reach of children's hands. The connecting element between the posts and tubes is the four-part, patented Polynode ball clamp, which fixes the horizontal tubes without screws. The newly developed Joe's Grid frames create transparency and provide safety. Due to the bar spacing of 7.5 mm, there are no finger traps, and no opportunity to climb the façade. On request, Joe's Grid can be powder-coated in any RAL color.

Design Elements

Thanks to our high-precision milling machines, we can create custom themed worlds with HDPE panels.

Windows

The façade can be supplemented with windows in different shapes.

Play Panels

The sensory-motor play panels offer children a great additional adventure while training their motor and auditory skills.

Polynode

The patented Polynode clamp consists of four parts and can be individually colored. The horizontal tubes are held inside the Polynode without screws.

Posts

The inclined posts are continuous and enable the stability of the entire framework. The post diameter of 108 mm gives the unit an elegant look.

Customized construction elements

Whether it's a carpet made from the planar net or a cool porch, let your imagination run wild!

Joe's Grid

The new innovative Joe's Grid provides the necessary safety and transparency. There are no finger traps or opportunities to climb the façade.

Depending on the size chosen – L or M – the number and type of play elements inside Villago vary. Our innovative playhouses offer a wide range of play options for all ages.

Villago LaGrange

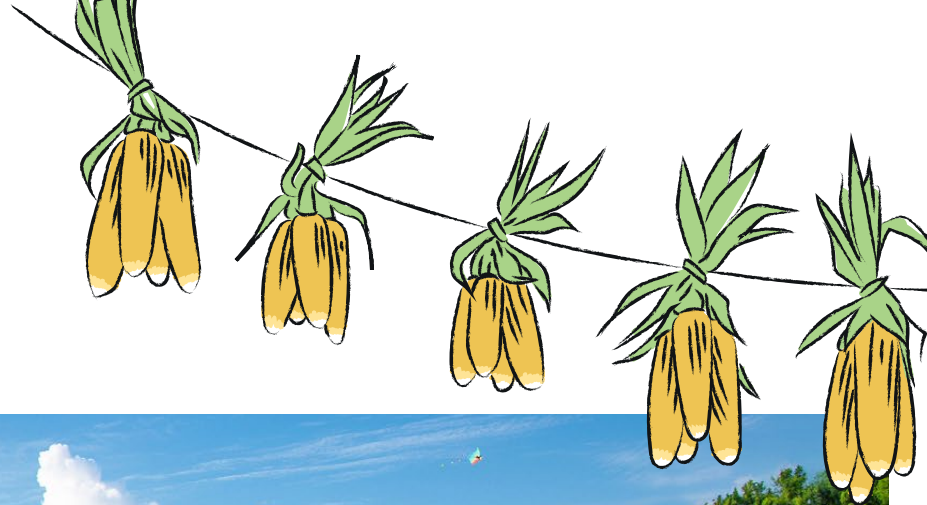

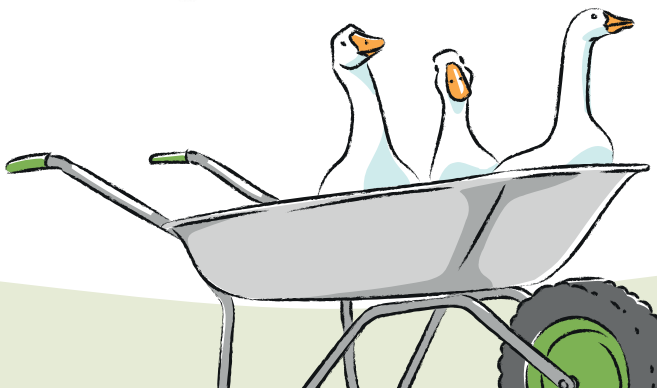

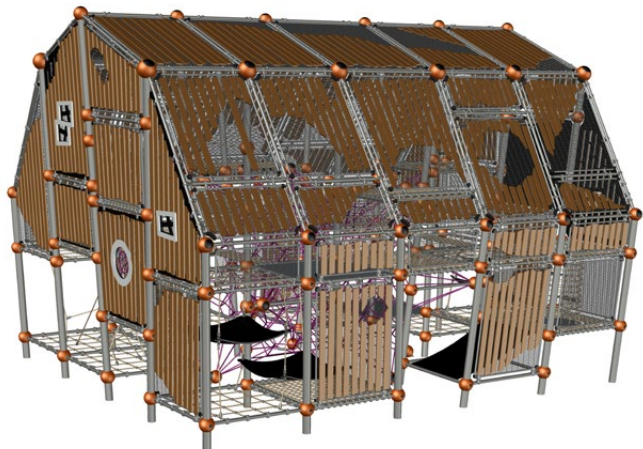

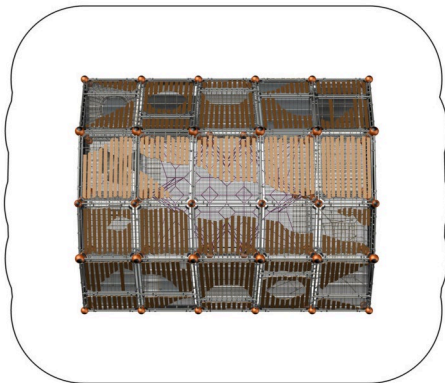

Villago LaGrange – the versatile play barn – transports children to an idyllic farm where they can not only have lots of fun playing but also develop their diverse skills. These rustic playhouses are clad with bamboo panels, providing a high-quality and natural design. To give the playhouses the look of a real barn while adding transparency, the bamboo is combined with our innovative transparent Joe's Grid.

Villago LaGrange L

VLL.001.001

	(¹ / ₂ "	26-6 × 20-9 × 18-4
	ASTM/CSA (¹ / ₂ "	38-6 × 32-9
	ASTM/CSA (¹ / ₂ "	6-0
		5-12

Villago LaGrange M

VLM.001.001

	(¹ / ₂ "	32-6 × 21-5 × 14-2
	ASTM/CSA (¹ / ₂ "	44-7 × 33-5
	ASTM/CSA (¹ / ₂ "	6-3
		5-12

The more compact M size is ideal for smaller play areas. It offers the same rustic charm as the large version, but takes up less space without compromising the variety of play options.

Villago Green

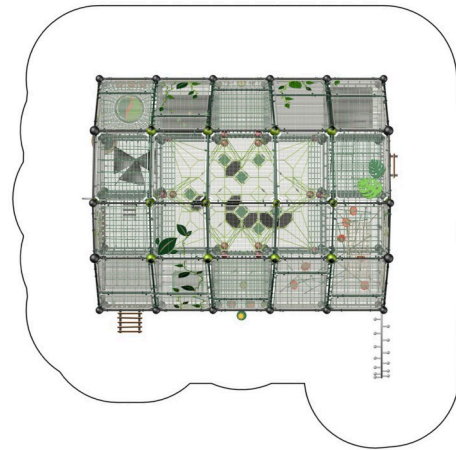

Villago Green combines the fascination of a greenhouse with an exciting climbing paradise. The playhouses impress with their transparent appearance and offer the opportunity to explore the secrets of nature through play. Surrounded by lianas, tomatoes, and other plants, which are both decorative and play elements, children can immerse themselves in their own garden world and develop various skills. Thanks to the transparent Joe's Grid frames, the playhouses blend seamlessly into the landscape and make it easy to supervise the children.

 ASTM/CSA (L")	37-0 x 33-5
 ASTM/CSA (L")	6-10
	5-12

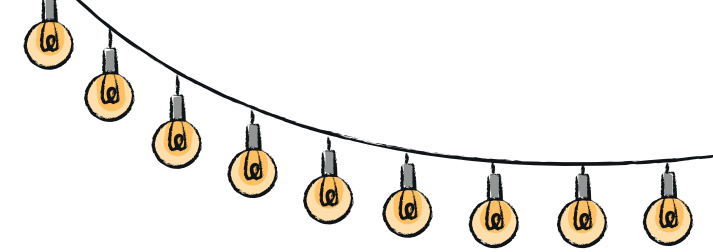

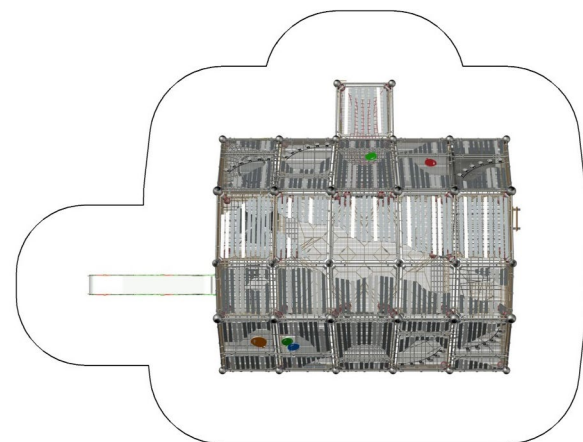

Villago Home

Immerse yourself in the colorful world of Villago Home – a paradise for little adventurers! These unique playhouses, designed with robust wooden panels and lovingly integrated details, allow children to let their imaginations run wild. Carefully selected design elements made of HDPE, such as the mailbox and doghouse, encourage role-playing and promote the social skills of the little ones. Our Villago Home will be an eye-catcher on any playground!

Villago Home L.02

	(¹ / ₂)	37-7 × 25-7 × 18-2
	ASTM/CSA (¹ / ₂)	49-9 × 37-7
	ASTM/CSA (¹ / ₂)	8-4
		5-12

	ASTM/CSA (¹ / ₂)	34-3 × 33-7
	ASTM/CSA (¹ / ₂)	9-4
		5-12

Villago Classic

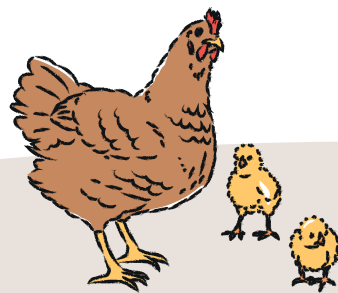

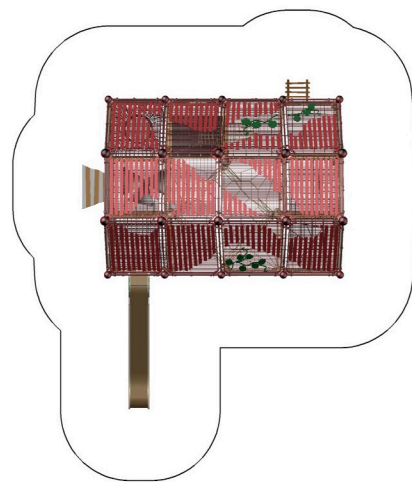

Inspired by traditional half-timbered architecture, Villago Classic invites children to re-live stories of yesteryear while enjoying a great climbing experience. The detailed design made of HDPE stimulates children's imagination. Whether it is an inn or a farm, a cozy home, or a workshop – our framework house offers countless opportunities for creative play.

Villago Classic M.02

VLM.005.002

	(¹ / ₂)	28-7 × 23-1 × 14-2
	ASTM/CSA (¹ / ₂)	40-9 × 35-1
	ASTM/CSA (¹ / ₂)	9-4
		5-12

Villago Beach

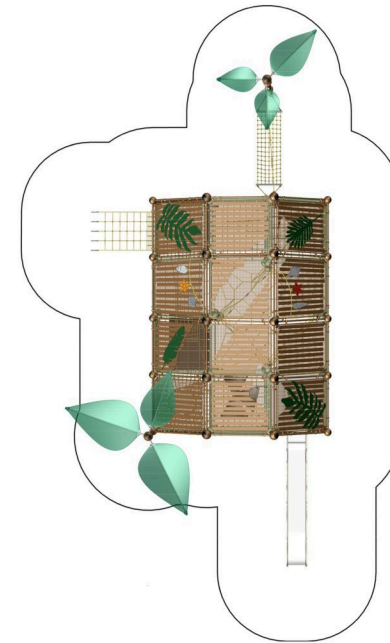

Villago Beach brings the magic of the sea and the charm of tropical coasts directly to your playground. The combination of transparent Joe's Grid, robust HDPE elements, and natural bamboo panels creates an authentic beach house feeling. Children can climb into the playhouse via the access net, race down the Fast Lane Slide, or relax in the cozy hammock under the Leaves. The numerous details such as surfboards, seahorses, and turtles invite little explorers to take an adventurous journey to the sea. Here, children can experience the beach dream every day!

Villago Beach M

VLM.002.001

	(¹ / ₂)	46-7 × 23-2 × 16-2
	ASTM/CSA (¹ / ₂)	55-2 × 33-0
	ASTM/CSA (¹ / ₂)	6-3
		5-12

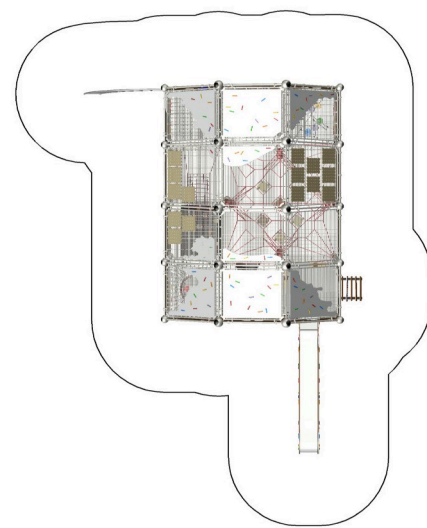

Villago Candy

Villago Candy – our decorated gingerbread house – transports children into a fairytale world full of magic and play adventures! Precisely milled details made of HDPE such as sweet gingerbread motifs, playful icing decorations, and colorful chocolate lentils and gummy candies awaken the imagination and invite children to role-play and discover. The ladder leads directly to the upper level, while the Fast Lane Slide guarantees a quick exit. Villago Candy is a truly magical place for little climbers and creative minds!

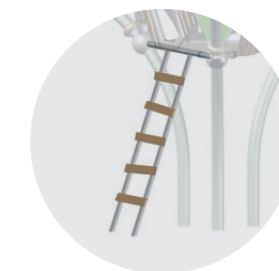

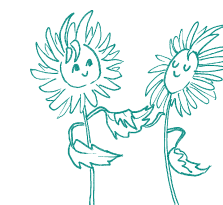

Villago Candy M.02

	(¹ / ₂)"	33-2 x 24-2 x 14-2
	ASTM/CSA (¹ / ₂)"	44-8 x 36-0
	ASTM/CSA (¹ / ₂)"	6-6
		5-12

Add-on Components

Make Villago your play equipment: Choose individually from our wide range of add-on elements! Various additional components provide the necessary challenge and offer many options to customize the playhouse making it inclusive for children of different ages and abilities. You can find a selection of our add-ons here.
